Index rerum vol. 13

Absorption of iron from food, 44, 207
Absorption of xylose, 370
Alkaline phosphatase and osteomalacia, 153
Anaemia and iron, 1, 2, 12, 31, 44, 52, 61, 207, 246, 296
Aphasia and the word, 307
Audiometric studies, 350
Automation and work (B), 256

Bone marrow and iron, 296
Brain disease, 97, 307
Brain syndrome and cinnarzine, 89

Calcium and osteomalacia, 153
Carcinoid syndrome, 368
Carotene in serum, 370
Catecholamines and excretion, 257
Central disorders of the special senses, 329
Cerebral dysfunction, 97, 181, 192, 307
Central nervous system and degenerative disorders (B), 96
Cerebral vascular disease, 181, 192, 339
Cholesterol and heart disease, 82
Cholesterol and triglyceride, 171
Cinnarzine and brain syndrome, 89
Collagen metabolism and hydroxyproline, 277
Cornea, 321
Corticotrophin in serum, 215
Cortisol and corticotrophin, 215
Creatinine excretion, 277

Day hospital (B), 320
Deafness, 350
Degenerative disorders of the CNS (B), 96
Dementia and depression, 233, 339
Dental care, 227, 359
Depression and dementia, 233
Digitalis glycosides, 119, 285
Diuretics and side effects, 261
Drug trial, pemoline, 269

Electroencephalogram and brain disease, 97
Epithelial changes, 61
Electrocardiogram, sodium and potassium, 233
Epidemiology and iron deficiency, 2
Extracellular fluid, sodium and potassium, 233
Eye, 321

Femoral neck and osteomalacia, 153
Foster-Moore's syndrome, 321

Gastrointestinal tract and iron, 207

Haemoglobin, 12, 52, 61, 227, 246, 296
Heart contractility and digitalis glycosides, 285
Heart disease and ischaemia, 82
Hospital management, 136, 161
Hydroxyproline and collagen metabolism, 277
Hydroxyproline-creatinine ratio, 277
Hypokalaemia, 114, 119

Iron and anaemia, 1, 2, 12, 31, 44, 52, 61, 207, 246, 296
Ischaemic heart disease, 82

KUM

Jaundice, 69

Lung function and smoking, 125
Lung, mechanical properties (B), 96
Lipid changes in overweight, 171
Liver biopsy and jaundice, 69

Macula, 321
Mastication and nutrition, 227
Megaloblastic anaemia, 12
Muscle strength and potassium, 221

Neurology, 97, 339
Nursing care, 161, 136
Nutritional deficiencies, 227
Nyctohemeral rhythm of corticotrophin, 215

Oral problems, 359
Osteomalacia, 153

Pemoline, drug trial, 269
Potassium, depression and dementia, 233
Potassium intake, 114, 119, 221
Potassium and muscle strength, 221
Physical illness in social emergencies, 145, 192
Phosphorus and osteomalacia, 153
Presbycusis, 350

Rehabilitation, 181, 192
Renin activity, depression and dementia, 233
Respiratory failure and smoking, 125
Retina, 321

Senses, central disorders, 329
Sensory deprivation, 97
Serum carotene level, 370
Serum corticotrophin, 215
Serum iron content, 12, 52, 246, 296
Serum lipids and overweight, 171
Sodium, depression and dementia, 233
Sodium, tubular reabsorption, 261
Social emergencies, 145
Strokes and vascular disease, 181
Sympathetico-adrenal system, 257

Teeth, 227, 359
Tissue changes and iron, 61
Toxicity of digitalis glycosides, 285
Transferrin and iron deficiency, 31, 207, 296
Triglyceride and cholesterol, 171

Urinary excretion of catecholamines, 257

Word and aphasia, 307

Vascular disease of the brain, 181, 192, 339
Vitamin B_{12}, 12, 227, 296, 370

Xylose absorption, 370
